

Cease and desist with your witch hunt: Get off Howard Stern's back! The government is interfering with Americans' constitutional right to freedom of speech. It is taking away our right to choose what we listen to over the airwaves.

You and the current administration are like the Taliban: You are attempting to control what we do and what we think. But mark my words, the American public will respond in November at the polls. George Bush and the fascist state he is promoting are on the way out.

Enough already!
